## ABOUT SINN-i

The international Sports-Innovation-Network (SINN-i) is a front-running network stimulating and creating innovations in the field of Health Style (physical activity, sports & health) with the core focus of bringing more joy of movement into the world.

The network encompasses not only an amazing array of highly competent partners representing all relevant groups of stakeholders (e.g. sports, health, sciences, technology, materials, education and engineering), but even more brings together enthusiastic and passionate innovators in the field of physical activity. For further information about the SINN-i, its activities and benefits, have look at the homepage:

# Joining the SINN-i? Why?

Value added for you:

- ☑ Easy and direct access to knowledge, expertise and partners.
- ☑ Cooperating in projects and activities, suggesting new projects and/or new partners.
- ☑ Joining the global innovation and mutual learning platforms.
- ☑ Access and support regarding financial and other resources.
- ☑ Participating all events organized by/within SINN-i for free
- ☑ Suggesting your own events, topics and fields of action.
- ☑ Introduction into and application of the method of Holistic Innovation as a systemic, systematic and creative methodology for creating successful innovation.
- ☑ SINN-i management: More than 20 years of related experience in innovation networks and systematic innovation work.
